New Fashions

Hundreds of new suits and dresses for Fall—

The crystal cases in the House of Fashions are filling up, ready for the throngs of women whose thoughts are busy with fresh autumn clothing and who are eager to know what the designers have been doing for them.

All the Suits, even the simplest tailored ones

are exceedingly feminine. They are frenchy and inconsequent and charming. Among them you will see all the new collars—the Chin, Militaire and Lord Kitchener; you will see new coat lengths; Russian Coats, with odd sashes; flaring coats with braided trims; wonderful skirts, shortened; in delightful autumn colors generally.

The Dresses for day wear

are the sort that will serve for informal little afternoon affairs.

One little group at \$15 is particularly good; some serge combined with taffeta in dark colors, some with flowered taffeta and there are taffeta, satin and charmeuse frocks, too; at \$25, the style range is wider—adaptations of the french.

The Coats are adaptations of the newest French models

for traveling and motoring. Fine foreign mixtures and duvetynes; American gabardines, broad-cloths and serges.

Fetching mixtures, a whole wardrobe, a sample collection, all \$15.

Come in and see them.

But When She Does--

then she will want a suit answering every requirement of style, service and good, honest value.

Style this year means many novel features of designs and finish unexpected at the prices.

Service is based on pure wool fabrics tailored to a standard which permits of no flaws, false pretense or make-believe.

Good honest value is the result.

Reunion at Gilboa.

Sunday, September 6, at the Gilboa church, a few miles out from Fairmont above Barracksville, will take place the annual reunion of the Dudley-Bogges-McDougal families. Gilboa was the early home of the families who will participate in the big event and the reunions are always held at that spot.

A. L. B. Dudley, of Fairmont, is the president for this year and he has been working for a considerable time in the perfecting of plans that will assure the success of the present meeting. He has had the assistance and counsel of many other members of the families, all of whom are hard at work to make this year's meeting the most interesting and worthwhile that has ever been held.

That it will be the most largely attended of all the annual gatherings seems now assured for letters have been received from many people living at a distance who have written expressing their intention of attending, and already some of them have arrived in the city. Everyone is invited to attend, and will be assured of a most pleasant time, for baskets heavily laden with all that goes to make a reunion a success will be present in numbers, and most attractive grounds are available for the use of the merry makers.

Dining Room to Open.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

If the flat iron is dirty, tie a piece of yellow beeswax in a rag and, when the iron is almost but not quite hot enough to use, rub it quickly with the wax and then with a coarse cloth. In boiling meats, take the fat from the top of the water and save for cooking or making soap. In the roasting of meats pour the grease out of pan, or dip it out before it gets burned. It will be excellent for use in cooking, but if it stays till the meat is done it will be sure to have a burned, unpleasant flavor.
